

Join Our Team

We strive to be an integral part of clients' decision making and business planning processes rather than just a hotline to call when problems arise. To do this, we must be more than lawyers, instead we must also be counselors that learn, appreciate and understand clients' origins and histories, their present and their future.

CORE VALUES

To create a diverse, inclusive and innovative firm composed of a legal team that seeks to solve problems and create solutions for clients. Our strength lies in our people and the unique experiences, skills and history that each of them has brought to our firm.

Our work affects the lives of people across the country and we work to ensure that clients and their constituents are bettered by our efforts and the services that we provide. We work to be productive members of both the legal community and broader community that we live in.
